PAR® | Tablet 8

MOBILITY DESIGNED FOR
HOSPITALITY AND RETAIL

Using our 35 years of experience in the hospitality and retail industries, PAR is introducing a tablet that is specifically designed for your environment. The PAR Tablet 8 is designed with the specifications and components that offer the optimal combination of features to meet the mobile needs of your hos-pitality or retail operation.

Whether you are looking to extend your POS solution, enhance customer experience or improve the efficiency of your opera-tions, the PAR Tablet 8 is the ideal fit. The tablet is the perfect balance of size and reliability, easily being held in one hand. With the tablet you will have the mobility you've been looking for with the durability and elegance your environment demands.

In addition, with the compatibility to current PAR Peripherals and systems, the tablet provides limitless possibilities for your operation.
