SOFTWARE DESIGNED JUST FOR YOU

In addition to the PAR Tablet family, PAR offers restaurant focused software to fit the needs of your business.

PAR Brink POS

Cloud-based Point of Sale software that easily adapts to support the evolving needs of customers. As a cloud-based software solution, Brink POS does not require a back office computer, and all your data is safe, secure, and accessible in the cloud. Adopting the PAR SaaS, or Software as a Service model, Brink POS is provided as a monthly subscription, and will proudly earn your business every month. There are no upfront licensing fees, and upgrades are included and performed automatically

PixelPoint

From Table Service to Quick Service, PixelPoint adapts to your hospitality business needs. PAR PixelPoint POS software is designed for use in any and all restaurant concepts, and is configurable to meet your specific hospitality environment and requirements, rather than forcing you to change your current processes. PixelPoint POS is available as a perpetual license or subscription option.
